

**Water is considered a symbol of freshness,  
Salt water is a creation of lightness,  
Frogs on waterlilies are filled with quickness.**

**Water is the meeting between different colours,  
With different sensations becoming watercolours.**

**Watery eyes are not always synonymous of despair,  
But sometimes they mean you glare.**

**In life, feelings are like a waterfall,  
They are waterproof for all,  
If you know how to keep them all.**
